

Key Tools to Boost Energy Renovation

European Parliament, Brussels, 9th October

Conference Agenda

OPENING:

11h15 **Bendt Bendtsen, EPP Group, DK – Welcome to Participants**

The amended EPBD brings challenges and opportunities for national policy makers

11h25 **Adrian Joyce, Campaign Director and Moderator for the Event**

Facing the Energy Renovation Challenge

PRESENTATIONS:

11h30 **Marjolaine Meynier-Millefert, Member of the French National Assembly**

Progress in the buildings sector and its contribution to the ecological transition in France

11h45 **Lynn Forsyth, Head of Energy Efficient Scotland Delivery, Scottish Government**

Energy Efficient Scotland – Scottish Government's programme for near zero emission buildings by 2050

12h00 **Mieke Maerten, Sustainability Manager for the City of Ghent**

The Ghent City Renovation Strategy for Existing Buildings – ensuring that citizens benefit

12h15 **Stephen Richardson, World Green Building Council**

Developing a market of financial products that stimulate real progress on energy renovation

12h30 **Stephanie Sfakianos, Global Head of Sustainable Capital Markets, BNP Paribas**

Setting up and launching a green mortgage pilot in the UK

DEBATE

12h45 **Q & A Session**

Moderated interactive exchange with presenters

12h55 **Wrap-up and Conclusions**

Adrian Joyce

The conference will be followed by a networking lunch inside the European Parliament (JAN Brasserie on the 3rd Floor) and, for those that have orange dots on their badges, by site visits to two construction sites where deep energy renovation works are underway or completed.

With the support of:

About the Renovate Europe Campaign

The **Renovate Europe Campaign** is a political communications campaign that was set up in 2011 following the adoption of the recast Energy Performance of Buildings Directive. That version of the Directive did not pay adequate attention to the great challenge of energy renovating the existing building stock in the EU.

The ambition of the Campaign is to reduce the energy demand of the building stock in the EU by 80% by 2050 compared to 2005 through coherent, ambitious legislation and actionable renovation programmes in the member states. The Campaign and its partners are well aware that in order to reach this ambition, the energy renovation in the EU must quickly rise to 3% per year and be maintained at that level until 2050.

Achieving our ambition will bring the energy performance of the entire building stock in the EU to a Nearly Zero Energy (NZEB) performance level, which is the revised requirement of the buildings directive as adopted in 2018. The result will be to bring multiple economic, social and environmental benefits to our citizens and to place European industry as the world-leading, most competitive for energy renovation techniques, products and systems.

The Renovate Europe Campaign brings together 41 partners from across the building value chain (trade associations, companies, trade unions, city networks and national partners from 15 EU member states).
